

The Pochin School - Curriculum Policy

Introduction

- It was revised during the Autumn Term 2014 through a process of consultation with the teaching staff and approved by the Governing Body it on 17 March 2015.

Summary

The Curriculum is the total of all learning experiences that The Pochin School provides for the children in its care. We aim to provide a broad, balanced curriculum for all pupils, at all stages of their development. Through the curriculum we aim to enable children to reach their full potential and develop their talents, interests and skills. We do this by teaching the full range of subject areas and choosing the appropriate teaching methods to take account of the wide variety of learning styles of children. We seek to provide opportunities for development, not only through academic subjects, but through all aspects of the school day, including break and lunch times, assemblies and extra curricular activities.

Values

Our school curriculum is underpinned by the values that we hold dear at our school. The curriculum is the means by which the school achieves its objective of educating children in the knowledge, skills and understanding that they need in order to lead fulfilling lives.

Our school is in full agreement with the values statement included in the introduction to the National Curriculum Handbook for Primary Teachers in England. These are the main values of our school, upon which we have based our curriculum:

- We value children's uniqueness, we listen to the views of individual children, and we promote respect for diverse cultures.
- We value the spiritual and moral development of each person, as well as their intellectual and physical growth.
- We value the importance of each person in our community, and we organise our curriculum to promote inclusion, cooperation and understanding among all members of our community.
- We value the rights enjoyed by each person in our society. We respect each child in our school for who they are, and we treat them with fairness and honesty. We want to enable each person to be successful, and we provide equal opportunities for all our pupils.
- We will strive to meet the needs of all our children, and to ensure that we meet all statutory requirements regarding inclusion.
- We value our environment, and we want to teach our pupils, through our curriculum, how we should take care of the world, not only for ourselves, but also for future generations.

Aims

The aims of our school curriculum are:

- to enable all children to learn, and develop their skills, to the best of their ability;
- to promote a positive attitude towards learning, so that children enjoy coming to school, and acquire a solid basis for lifelong learning;
- to teach children the basic skills of literacy, numeracy and computing;
- to enable children to be creative and to develop their own thinking;
- to teach children about the developing world, including how their environment and society have changed over time;
- to help children understand Britain's cultural heritage;
- to appreciate and value the contribution made by all ethnic groups in our multi-cultural society;
- to enable children to be positive citizens;
- to fulfil all the requirements of the National Curriculum and the Locally Agreed Syllabus for Religious Education;

- to teach children to have an awareness of their own spiritual development, and to distinguish right from wrong;
- to help children understand the importance of truth and fairness, so that they grow up committed to equal opportunities for all;
- to enable children to have respect for themselves and high self-esteem, and to live and work cooperatively with others.

Organisation and planning

We plan our curriculum in three phases. We agree a long-term plan for each key stage. This indicates what topics are to be taught in each term, and to which groups of children. We review this long-term plan on an annual basis.

Our medium-term plans are based on the schemes of work related to the various subject areas.

Our short-term plans are those that our teachers write on a weekly or daily basis. We use these to set out the learning objectives for each session, and to identify what resources and activities we are going to use in the lesson.

In the Early Years Foundation Stage, and at Key Stage 1, we adopt an inter-disciplinary topic approach to curriculum planning. We plan the curriculum carefully, so that there is coherent and full coverage of all aspects of the National Curriculum and early learning goals, and there is planned progression in all curriculum areas.

In Key Stage 2 we teach the foundation subjects separately. This means that, for example, a child may concentrate in one term on a history topic, then switch to a greater emphasis on geography in the next term. Thus, in due course, each child has the opportunity to experience the full range of National Curriculum subjects.

The curriculum and inclusion

The curriculum in our school is designed to be accessed by all children who attend the school. If we think it necessary to modify some children's access to the curriculum, in order to meet their needs, then we do this only after their parents have been consulted.

If children have special needs, our school does all it can to meet the individual needs, and we comply with the requirements set out in the SEN Code of Practice. If a child displays signs of having special needs, then his/her teacher makes an assessment of this need. In most instances the teacher is able to provide the resources and educational opportunities that meet the child's needs, within normal class organisation. If a child's need is more severe, we consider the child for an Education, Health and Care Plan (EHCP), and we involve the appropriate external agencies in making an assessment. We always provide additional resources and support for children with special needs.

The school provides an Individual Educational Plan (IEP) for each of the children who are on the special needs register. This sets out the nature of the special need, and outlines how the school will aim to address it. The IEP also sets out targets for improvement, so that we can review and monitor the progress of each child at regular intervals.

Some children in our school have disabilities. We are committed to meeting the needs of these children, as we are to meeting the needs of all groups of children within our school. The school complies fully with the requirements of the amended Disability Discrimination Act that came into effect in September 2002. All reasonable steps are taken to ensure that these children are not placed at a substantial disadvantage compared to non-disabled children. Teaching and learning is appropriately modified for children with disabilities. For example, they may be given additional time to complete certain activities, or the teaching materials may be adapted.

The school has implemented the recommendations of The Stephen Lawrence Inquiry: Macpherson Report (1999). Our schemes of work address the diversity of our society, and reflect the National Curriculum programmes of study.

The Early Years Foundation Stage

The curriculum that we teach in the reception class meets the requirements set out in the revised National Curriculum at Foundation Stage, and the guidance produced in 2008. Our curriculum planning focuses on the Early Learning Goals, as set out in these documents, and on developing children's skills and experiences.

Our school fully supports the principle that young children learn through play, and by engaging in well-planned and structured activities. Teaching in the reception class builds on the experiences of the children in their pre-school learning. We do all we can to build positive partnerships with the various nurseries and other pre-school providers in the area.

Each term in the reception class the teacher will assess the skills development of each child, and record this in the Foundation Stage Profile. This assessment forms an important part of the future curriculum planning for each child.

We are well aware that all children need the support of both the parents and the teachers to make good progress in school. We strive to build positive links with the parents of each child, by keeping them informed about how the children are being taught, and how well each child is progressing.

Key skills

The following skills have been deemed 'key skills' in the revised National Curriculum:

- communication;
- application of number;
- information technology;
- working with others;
- improving one's own learning and performance;
- problem-solving.

In our curriculum planning we emphasise these skills, so that the children's progress in all of these areas can be identified and monitored. Teachers in all subject areas seek to contribute to a child's progress in these skills, because we believe that all children need to make good progress in these areas if they are to develop their true potential.

The role of the subject leader

The role of the subject leader is to:

- provide a strategic lead and direction for the subject;
- support and advise colleagues on issues related to the subject;
- monitor pupils' progress in that subject area;
- provide efficient resource management for the subject.

The school gives subject leaders non-contact time each term, so that they can carry out their duties. It is the role of each subject leader to keep up to date with developments in their subject, at both national and local level. They review the way the subject is taught in the school, and plan for improvement. This development planning links to whole-school objectives. Each subject leader reviews the curriculum plans for the subject, ensures that there is full coverage of the National Curriculum, and sees that progression is planned into schemes of work. The subject leader also keeps a portfolio of children's work, which s/he uses to illustrate the achievements of children at each key stage, and to exemplify the attainment expected.

Monitoring and review

Our governing body's Education committee is responsible for monitoring the way the school curriculum is implemented.

The headteacher is responsible for the day-to-day organisation of the curriculum. The headteacher monitors the weekly lesson plans for all teachers, ensuring that all classes are taught the full requirements of the National Curriculum, and that all lessons have appropriate learning objectives.

Subject leaders monitor the way their subject is taught throughout the school. They examine long-term and medium-term planning, and ensure that appropriate teaching strategies are used. Subject leaders also have responsibility for monitoring the way in which resources are stored and managed.

This policy is monitored by the governing body and will be reviewed every three years, or before if necessary.
